HOW TO GROW AN APPLE TREE?

Exercise 2

Match the pictures with numbers (1-6) to show how an apple tree grows.

1

Put the apple seeds into healthy soil.

2

Then, the seeds sprout and start to grow.

3

The plant needs water and sunshine to grow.

4

It becomes a young tree with branches and leaves.

5

Later, the flowers bloom.

6

Lastly, flowers turn into fruits.
