After a Heart Attack

1. Absolutely no smoking!
2. Drink only small quantities of alcohol and limit it to wine.
3. Eat sensibly. Try to eat nutritious food which is neither fatty nor salty. Stay away from fried food. Concentrate on eating fresh fruit and vegetables, and whole-grain bread. Eat just a small amount of either grilled fish or chicken. Weigh yourself weekly. Remember: being overweight may have caused your condition.
4. Try to keep in shape. Exercise three or four times a week. Keeping fit will strengthen your heart. This will help prevent another attack.
