My Daily Routine

I always wake up early and get out of bed right away. I usually brush my teeth and take a shower before getting dressed. I sometimes listen to music while I prepare myself, because it makes me feel more active.

I normally eat breakfast with my family. I occasionally drink coffee, but I prefer juice. I rarely skip breakfast, because I need energy for the day.

At school, I generally study hard and I always pay attention in class. I often talk with my friends or play during the break.

After school, I usually do my homework. I sometimes leave it for later if I feel tired. I frequently practice sports with my team.

In the evening, I almost always have dinner with my family. After that, I usually watch TV or read a book. I hardly ever stay up late, and I always get ready for the next day before going to bed.
