Andre's Hobby

Andre is a student in SMP Merdeka. He is fourteen years old and lives in Bandung with his parents and younger sister. Andre is friendly and diligent, and he has many friends at school. His favorite subject is English because he likes reading short stories and learning new vocabulary.

Andre's hobby is playing the guitar. He started learning when he was ten years old. Every afternoon, after finishing his homework, he practices for about one hour. Sometimes he plays simple songs, and sometimes he tries to make his own melody. On weekends, he often plays guitar with his cousin in the garden.

For Andre, playing the guitar is not only fun but also relaxing. It helps him forget his tiredness after studying. His family also supports him, and they enjoy listening when Andre plays a song. Andre dreams of joining the school band one day and performing in front of many people.
