Think about what you drink in the afternoon and evening. Cola drinks can keep you awake. Don't eat too much before bedtime and have at least an hour after dinner to let your food go down. Try to get some fresh air each day. You don't have to do a sport every day. Just going outside is good.

Try not to have your bedroom too hot or too cold. Put a nightlight on if you like to have some light. Try dark curtains if you don't. Try to go to bed at the same time each day. This should be the same at weekends as well as on school nights.

Have a warm bath or shower before bed to relax you. A milky drink could also help you sleep. Don't watch the television or use a phone or tablet before bed. The light they give off can wake up your brain. Remember to go to the toilet before you go to bed.
