– 10 questions –

Swans

Example

A swan is a bird which always lives near water.

1 It is like a duck, but much, with a very long neck. Swans have heavy bodies, but their wings are very strong

2 they can fly well.

Swans can sleep in or out of the water, and they can

3 go to sleep when they are standing on one leg!

Swans live in several different countries. They are

4 white, but in some places there are black ones

5 too. Most swans fly to warmer countries the winter starts. This is called 'migration'.

A baby swan is called a 'cygnet'. Cygnets are grey and can swim as

6 as they come out of their eggs. A mother swan

7 often carries her young cygnets her back when

8 she's swimming. She does this to keep safe.

Swans are clever birds. If a person does something unkind to a swan, it

9 will that person. You shouldn't go too near to

10 a swan – they can sometimes dangerous.
