

To find the area of a rectangle, you multiply (x) its Length by the Width.
Area = L x W

Area of Rectangles Using the Formula Method

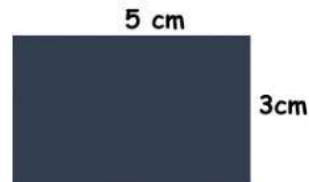

Find the area of the following rectangles.

1.

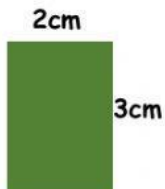

Length= cm Width = cm
Area = cm x cm
Answer = cm²

2.

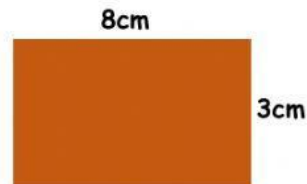

Length= cm Width = cm
Area = cm x cm
Answer = cm²

3.

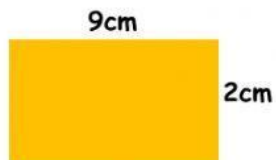

Length= cm Width = cm
Area = cm x cm
Answer = cm²

4.

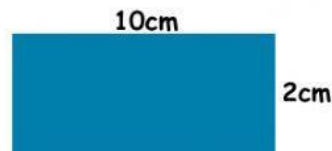

Length= cm Width = cm
Area = cm x cm
Answer = cm²

5.

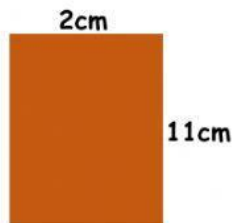

Length= cm Width = cm
Area = cm x cm
Answer = cm²

6.

Length= cm Width = cm
Area = cm x cm
Answer = cm²

7.

Length= cm Width = cm
Area = cm x cm
Answer = cm²

8.

Length= cm Width = cm
Area = cm x cm
Answer = cm²
