Last year, our class visited Thao Dien Lower Secondary School for blind students. Before the visit, we learned about the outdoor activities the students usually join. When we arrived, we were warmly welcomed and introduced to the school's programs. We were amazed to see how confidently the students interacted with us. They enjoyed talking while painting, drawing, making clay fruits, and creating paper art. Some of them even learnt English words for different fruits. The most touching moment was when we worked together on a group art project, laughing and sharing ideas. Although the visit was short, it gave us valuable experience and a deeper understanding of the challenges and talents of blind students. It was a meaningful day that we will always remember.

WRITING EXAMPLE

We take part in many outdoor activities at school, but my favourite is planting vegetables in the school garden every Friday afternoon. First, we prepare the soil and plant seeds. Then we water them and remove the weeds. This activity is useful because it makes the garden green and provides fresh vegetables for our canteen. I feel happy and relaxed when working with my friends in the fresh air.
