	Karen	Peter	Sue
7. Who says working in an office is easier now?	A	B	C
8. Who says their best friend is in a different country?	A	B	C
9. Who says their colleagues worry about them?	A	B	C
10. Who says they are different from their friends?	A	B	C
11. Who says they are learning a new language?	A	B	C
12. Who says they have made new friends on the internet?	A	B	C
13. Who says the internet saves them money?	A	B	C

Karen

I think the internet is great. My cousins live in Australia and I really miss them. We use Skype to talk once a week and to tell each other our news. Also, my best friend lives in a different country so we talk on the internet nearly every day. Talking on the internet saves me money because calling on the phone would be very expensive.

The internet is a great way to have fun. I love playing games on my own and with my friends on the computer. I have made new friends on the internet, even in different countries, which is exciting. Sometimes my colleagues worry about me and think that I should stop playing because games can make you do bad things in real life. However, I'm clever enough to know the difference between games and real life. I wouldn't do anything bad.

Peter

Sue

I'm not really interested in playing games on the internet although most of my friends are. For me the best thing about the internet is that I can find information about everything. Working in an office is easier now because I can find all the information I need on the internet. Also, I am learning a new language on the internet by listening to songs in German. It's much better than my boring French classes when I was a student.
