Reading comprehension

Read and answer the questions below.

GreenFuture Ltd. is a company that has become well known for its commitment to the environment and local communities. First of all, it always complies with regulations to make sure its operations are legal and safe.

The company also encourages its employees to donate time to community projects, such as cleaning parks and helping schools. In addition, it works hard to reduce the impact of its factories by using renewable energy and recycling materials.

GreenFuture believes that every business must act responsibly, so it monitors its production carefully to avoid pollution. It also tries to take an active part in the life of the community by sponsoring cultural and sports events.

Even when profits are low, the company prefers to stay true to its principles and continue with eco-friendly practices. Finally, it has joined other organizations that share a strong commitment to protecting the environment worldwide.
