HOW TO BECOME HEALTHIER

Firstly, you should eat balanced meals. You should eat lots of fruit and vegetables because they are full of important vitamins. You shouldn't eat too much fatty food. Things like chips and burgers have a lot of fat. Also, be careful with sugar. If you eat a lot of sweet food, the sugar gives you energy for a short time, but afterwards you will feel more tired. Secondly, exercise should be part of your daily routine. Don't hurt yourself, start with gentle exercise. Exercise for at least 15 minutes every day. Or you can try a team sport or join a gym. Exercise can also be cycling instead of taking the bus, or using the stairs instead of the lift. Moreover, staying healthy requires enough sleep. It's sometimes OK to go to bed late; but if you stay up late too often, it will be bad for your health. Try to sleep eight hours every night. Lastly, every year, you should go to the doctor for regular check-ups. When you get fit and healthy, you will feel great.
