The Desert and the Rainforest

The desert and the rainforest are very different landscapes. The desert is **hotter** in the daytime than the rainforest, but at night it is **colder**. The rainforest is the **wettest** landscape. Some deserts are the **hottest** places on Earth during the day.

The rainforest has more animals and plants than the desert. The rainforest is the **noisiest** place because of birds, insects, and monkeys. The desert is one of the **quietest** places.

The rainforest is one of **the most beautiful** places, with tall trees and colourful plants. The desert is also beautiful. It has some of the **brightest** night skies.

Both the desert and the rainforest can be dangerous. The desert is **hotter** and **drier**, while the rainforest can have **the most dangerous** animals and storms.
