3 **Fill in the gaps with a suitable pronoun or *there*.**

Teacher: Do you think that governments spend too much on space exploration nowadays?

Student: Well, I think that 1 ..there.. are a lot of different factors to take into consideration. For example some countries want to show the rest of the world that 2 ..... are successful and 3 ..... can do this with a space exploration program. 4 ..... seems that 5 ..... is more important for these countries to impress the world than to look after their own people. Sometimes 6 ..... is difficult to understand this because every country in the world has 7 ..... problems and has poor people that need to be looked after because they can't look after 8 ..... . So, yes, I do think that these countries should look after people first before 9 ..... start trying to send men to the moon! 10 ..... are too many other problems here on earth that we need to sort out.

4 **Underline the correct words.**

There are many reasons why **1** we / they should recycle household waste. The main reason is to avoid using up valuable resources making new things when **2** it is / we are not necessary. However, I do not think the government should make **3** it / the law compulsory for people to recycle their waste.

If the government makes a law that all households must recycle **4** their / its rubbish, **5** the law / it could lead to more problems. For example, how can **6** you / people check that people are recycling everything? **7** It is not practical to do this. / To do this is not practical. In addition, there is the argument that individuals should be allowed to decide for **8** each other / themselves whether to throw something away or to recycle **9** it / something.

I believe the most sensible approach is for the government to put more money into recycling schemes. The most successful are **10** the ones / them where the government gives each household special boxes to put different kinds of waste in, and **11** the government / they provide a regular collection service. **12** They / There are separate boxes for plastic, metal, glass etc. This makes **13** to recycle easier for people / it easier for people to recycle and **14** they / there are therefore less likely to throw things in the rubbish bin.
