Read the following passage and mark the letter A, B, C or D to indicate the correct answer to each of the following questions.

Many people believe that technology is helping children learn more effectively than before. Educational apps and websites make it easy for students to find information, practise lessons, and learn at their own pace. However, research shows that children also need guidance to use technology in the right way.

Without clear **guidance** from teachers and parents, some students spend too much time online playing games or chatting rather than studying. In such cases, technology becomes a distraction instead of a useful tool. On the other hand, when used correctly, digital learning platforms can improve students' problem-solving and creativity.

In schools that combine classroom learning with online activities, students are often more motivated. They enjoy interactive lessons and find studying more interesting. Teachers also benefit from technology because it helps **them** track students' progress and design lessons that fit different learning styles.

Still, experts warn that technology should not completely **replace** traditional methods. Reading printed books, writing by hand, and group discussions are still important for developing deep thinking and social skills. The best approach is to balance both digital and traditional ways of learning.

28. What is the main idea of the passage?
- A. Teachers should use more technology in class.

- B. Technology is the only way for children to learn effectively.
- C. Children learn best through traditional teaching only.
- D. Technology can support learning, but balance is necessary.
29. The word “**guidance**” in paragraph 2 is CLOSEST in meaning to _____.
A. attention B. freedom C. direction D. connection
30. According to paragraph 2, why can technology be a problem for some students?
A. Because it is too expensive.
- B. Because they use it for entertainment instead of studying.
- C. Because their teachers do not understand it.
- D. Because it replaces teachers completely.
31. The word “**them**” in paragraph 3 refers to _____.
A. students B. lessons C. teachers D. activities
32. Which of the following is NOT true according to the passage?
A. Technology helps teachers follow students’ progress.
- B. Some students are distracted by technology.
- C. Technology and traditional learning should be balanced.
- D. Reading printed books is no longer important.
33. The word “**replace**” in paragraph 4 is OPPOSITE in meaning to _____.
