B. Uraian Materi

Pada pembelajaran 1, Anda telah belajar tentang fungsi sosial dan struktur teks eksposisi analitis. Maka, pada pembelajaran 2 kali ini, Anda akan belajar tentang *language features* dalam penulisan *analytical exposition text* dan bagaimana menggunakannya.

Kaidah Kebahasaan text analytical exposition adalah sebagai berikut:

1. Penulisan *analytical exposition text* menggunakan **simple present tense**. Mengapa menggunakan tenses ini adalah karena teks eksposisi merupakan teks yang menyampaikan pendapat yang bersifat umum dan merupakan fakta.
2. Menggunakan *thinking verb* / **kata-kata yang mengekspresikan pikiran atau perasaan penulis**, contohnya: *experience, feel, know, realize, sense, think*, dll.
3. Menggunakan **internal conjunction** yaitu **kata penghubung** yang menghubungkan argumen di antara dua klausa. Internal conjunctions dapat dibagi menjadi empat kategori, yaitu
 - (1) *addition* (penambahan) contohnya *besides, in addition, further*.
 - (2) *Comparisons* (perbandingan), seperti *but, vice versa, meanwhile, on the other hand*.
 - (3) *Time* (waktu), misalnya kata *second, then, then, next*.
 - (4) *Cause-effect* (akibat). Contoh katanya antara lain *consequence, as a result, so, the result*.

Perhatikan penggunaan *simple present tenses*, *thinking verb*, dan *internal conjunction* sebagai ciri khas dari teks eksposisi analitik.

I strongly **believe** that mobile phones are necessary. My reasons for this belief are that these phones are convenient for business people who travel a lot, and they are handy for emergencies.

To begin with, mobile phones are necessary in the case of emergencies. **For instance**, if you fall down a set of stairs in a building and are badly injured and can't reach a pay phone, it is handy to have one to use. Or, if your car breaks down in the middle of the night in a strange neighbourhood, it would be dangerous to leave it in search of a public phone booth.

My other main reason is that mobile phones are convenient for business people. **For example**, if you are out of the state or even overseas and you have to contact a client to do some important work, it is useful to have one to use. By using a mobile phone, important information can be received. People can't stay in an office all day waiting for their phone to ring. Some people have to go and do jobs or they will go out of business. You can even send faxes or messages and use the internet with your mobile.

In conclusion, I **believe** that mobile phones have now become a necessary part of every day life. Instant communication will ensure that information can be passed on with a simple press of a button. **Whether** this is to do with business or personal information or emergencies, it goes to show that they are necessary in the new millennium.

Perhatikan bahwa hampir seluruh kalimat dalam teks adalah dalam bentuk simple present tense yang dicirikan dengan penggunaan kata kerja atau verb 1. Kata yang ditebalkan (*to begin with*, *for instance*, *my other main reason*, *whether* dan *in conclusion*) adalah kata sambung atau conjunction yang umumnya digunakan untuk menghubungkan argumen di antara dua klausa. Sementara kata *believe* adalah contoh *thinking verb* yang mengekspresikan pikiran atau perasaan penulis.
