Unidades cúbicas

1) $600 \text{ m}^3 \rightarrow \text{mm}^3$

$$1 \square \square \cdot \frac{\square \square}{\square \square} = \frac{\square \cdot \square}{\square} = \square \square$$

2) $3000 \text{ mm}^3 \rightarrow \text{m}^3$

$$\square \square \cdot \frac{\square \square}{\square \square} = \frac{\square \cdot \square}{1 \square} = 1 \square \square$$

3) $5000 \text{ m}^3 \rightarrow \ell$

$$\square \square \cdot \frac{\square \square}{\square \square} = \frac{\square \square}{\square} = \square \square$$

4) $30000 \text{ dm}^3 \rightarrow \text{ml}$

$$\square \square \cdot \frac{\square \square}{\square \square} = \frac{\square \square}{\square} = \square \square$$
