READING

10 **Read the text about team games. Are the sentences true (*T*) or false (*F*).**

Three Different Team Games

A game of **ice hockey** is played by two teams and takes sixty minutes. Each team has twenty players, but only six from each team play on the ice at the same time. They are five skaters and a goalkeeper. The idea is to hit the puck or small round black ball with a stick and to get it in the other team's goal. At the end of the game the team with the most goals wins.

Water polo is a team watersport. It's like basketball, football and hockey in the water and the players don't stop moving! They cannot stand in the pool. Players use one hand and swim with the ball. Each team has six players and one goalkeeper. The winner is the team with the most goals.

Shinty is a team game like hockey and ice hockey. A game takes ninety minutes and there are twelve players in each team. Each player has a stick and they try to hit the small ball into the other team's goal. They cannot use their hands or arms.

and how much money the seller pays them. It's not expensive, it's not very difficult to do and sometimes it doesn't take very long to sell things.

Lots of people look on YouBuy every day. One day my mother put a wool jumper and some leather boots on YouBuy and eleven people wrote to ask her about the boots. She sold them to the person who wanted to give her the most money. But you don't always get a lot of money for your things. My older brother put his guitar on YouBuy and nobody wanted to pay more than £10 for it. He decided not to sell it.

Sometimes YouBuy is brilliant for buying things and my dad always uses it for sports things. My mum hates using YouBuy for clothes and my brother doesn't like to buy computer things on it. My aunt really hates YouBuy because she always sees something she likes but she never has any money to spend. But most people love it and think it's a great way to buy, sell and save money!

READING

10 **Read the review of *Madagascar*. Are the sentences true (*T*) or false (*F*)?**

David Attenborough's *Madagascar*

This is a three-part programme about Madagascar, one of the world's oldest islands. David Attenborough first went to Madagascar 50 years ago and this DVD shows us how the country and the island's animals have changed. He shows some film from his many visits over the years. Some of the film is in black and white.

Madagascar has mountains going from north to south and, because of the mountains, the island has a lot of different weather. The highest mountains are very high so plants and trees don't grow on them.

On the east of the mountains there are forests and amazing rivers and there are interesting birds and animals. On the west of the mountains, the weather is very dry. It has very hot days and cold nights, and there are interesting plants, birds and animals here too.

Madagascar is a really special island in the Indian Ocean, and David Attenborough tells us how many of the plants and animals changed over 60 million years. He also tells us how he filmed in difficult parts of the island. This is the best nature programme I have ever watched!

1 The DVD is about Madagascar in the past and today. T / F
2 The weather is the same all over the island. T / F
3 There are forests on the east of the island. T / F
