Finding Your Way Around the City

Dear Sam,

Thanks for asking about getting to our new campus. The directions can be a bit (1) _____, especially if you are not used to this area, so I hope this helps. From the train station, go straight for two blocks and you will reach a (2) _____ in the road; take the left path there. Continue for about five minutes until you reach the library, which is (3) _____ of the main entrance of the campus.

The campus is located in a (4) _____ neighborhood, which is quieter and cleaner than the downtown area and has more residential streets. Walking is (5) _____ than driving because parking is limited, and the paths are safe. You will find the café (6) _____ located next to the student center, so it is easy to grab a snack between lectures.

Looking forward to seeing you soon!
