There will be (15) cinemas showing a wide range of the current films.

(16) films will be shown twice a day.

There will be walkways with (17) between different areas of the mall.

There will be an exhibition focusing on the (18) of the area.

 **Track 19**

Part 1
Part 2
Part 3
Part 4

You will hear five short extracts in which people are talking about how they got their current jobs. For questions **19–23**, choose from the list (A–H) what each speaker says. Use the letters only once. There are three extra letters which you do not need to use.

A I'd done some unpaid work experience at the company.

B I saw an advertisement on a careers website.

Speaker 1

19

C I had a contact who worked at the company.

Speaker 2

20

D I heard about it from a friend.

Speaker 3

21

E I was lucky with a phone call.

Speaker 4

22

F I approached the boss face to face.

Speaker 5

23

G I was promoted from a previous position.

H I found out about the company through social media.

You will hear a radio interview with a doctor called Ann Winters, who is an expert on memory. For questions 24–30, choose the best answer (A, B or C).

24 Ann compares the human memory to a hard drive because
A both can be negatively affected by external factors.
B both can be trained to expand and improve.
C both can store an unlimited number of images.

25 We are told that people suffering from Alzheimer's disease
A don't understand the mechanism of life.
B can't remember who they are.
C forget how to perform simple tasks.

26 Research has shown that people who have mentally active jobs
A will never develop Alzheimer's disease.
B are more likely to develop Alzheimer's disease.
C are less likely to develop Alzheimer's disease.

27 Apparently, our memories are harmed by
A doing too many physical exercises.
B devices designed to help us remember things.
C forcing ourselves to try to remember too much.

28 Ann says we can remember things if we
A connect them with a physical object.
B look at them very carefully first.
C encourage people to remind us about them.

29 The technique Ann describes works best for people
A who like pictures.
B who are used to abstract thought.
C who can visualise ideas well.

30 Doing crosswords is an example of activities that
A can prevent ageing.
B can extend life expectancy.
C can delay memory decline.
