Short answer: Look at the pictures and write the type of pollution under each picture.

Water air environment

_____pollution

_____pollution

_____pollution

Short answer: Look at the pictures and complete the sentences with **should** or **shouldn't**.

1.  He _____ throw trash on the ground.

2.  We _____ cut trees.

3.  We _____ plant more trees.

4.  We _____ put our trash in the bin.

Short answer: read the text and answer the questions.

Hello! My name is Karla Larson. I'm 15 years old. Today I'm going to give you some suggestions on how we can protect our national parks. First, don't use too much water when you wash your hands or take a shower. We shouldn't waste water. Also, don't litter the parks. Keep the garbage until you find a trash can. Littering makes our parks dirty. We shouldn't waste paper, either. We should recycle, reduce, and reuse paper because trees are being cut down to make the paper. We should plant trees and protect the animals.

1. What should we protect? _____
2. What should we recycle, reduce and reuse? _____
3. What makes parks dirty? _____
4. What should we plant? _____

Short answer: complete the chart using the given words.

pollution global warming waste disposal desertification

Short answer. Write the phrase that better describes each picture. 4 pts 1pts each.

melting caps deforestation polluted rivers littering

Identification Write the name of each layer .

understory

canopy

emergent

forest floor
