

Student's Name: _____ Grade & Section **12** Date: ___ / ___ / 2025

Subject: Engineering

Lesson: Renewable Energy Mix

Goal:

Use what you learned to defend your energy source and make a smart decision for a new school's renewable system.

The Scenario:

A new school is being built.
It can only afford to install **ONE** renewable energy system — **Solar, Wind, or Geothermal.**
Which one should it be, and why?

1-Team Discussion

With your team, plan your argument. Use **one fact from your table** to support your choice.

- **Our Energy Source:** _____
- **Main Reason It's the Best Choice:**

2- Vote

After hearing all sides, vote again for the best energy source for the school.

My final choice: _____

Did my opinion change? Yes No

Why or why not?
