Ex2: Read the text and choose the correct answer A, B, C or D.

Many schools nowadays require their students to spend an amount of time doing community service. Why? Because they hope those children will become caring people and see the values in giving their time and talents, and donating their toys, clothes, or money. Volunteering gives children a sense of responsibility because many people depend on them for food, clothes, or shelter. Volunteer work can also help children learn important lessons about themselves and about life. For example, community work can make them realize what they are good at and what they enjoy doing most. Volunteer work can even help children decide what they want to do when they grow up. Finally, doing voluntary work can reduce stress and improve the children's mental health because they might feel happier when they can bring happiness to other people. So what are you waiting for? Make a plan to start volunteer work today!
