

The background is a vibrant space scene. At the top center, a large yellow comet with a red nucleus streaks across the sky. Four astronauts in white suits are positioned around the perimeter: top-left is floating with arms outstretched; top-right is sitting and reading a red book; bottom-left is standing and holding a large orange pencil; bottom-right is standing and holding a yellow diamond-shaped object. The background features a large, light blue and white spiral galaxy in the center, a blue and white planet on the left, a brown and orange planet on the right, and a purple planet with a ring at the bottom. The entire scene is set against a dark purple space with white stars and a dotted white border.
