

WE'RE JUST MAKING IT WORSE

Cameron Avery, Alexandra Savior

And I don't wanna believe it
So don't, don't let me see it
When you're with him
And I won't bring her
Let's not make it worse
Let's give _____ some time
To start again

And I don't know what your papa
_____ you
But honey don't, don't you be cruel
Don't let me see you with her
And I won't bring him
Don't _____
Let's give ourselves some time
To start again

Our mistakes and choices we make
Or chances we take
Without _____
It wasn't me, neither you
No, this ain't a thing
I'm just tryin' to begin again
- But don't come here with him

And I could have played it better
I kind of wish that I never met her
But don't _____ with him
- And you don't with her - let's not make it worse
Let's give ourselves some time
To start again

make this a thing

play it cool

take me back

taught

ourselves

thinking it through

hold hands

And I know that it's only dancing
But don't let me see you romancing
'Cause I'm only human
I can't _____ when

I know there's something still there
I know you still care
I know she can't hold you like I can
Honey, I'm your man, you know that I am
You just gotta _____ for good
If only you would
But I'm here with him
And I am with her

We're just making it worse
We're just making it worse
We're just making it worse
