

Save Paper - Save Trees

Paper is made from wood. The more paper we use the more the number of trees that need to be cut. By reducing the use of paper we can help save our environment.

Given below are some statements. Tick (✓) the ones that help you to save paper and cross out (✗) the ones that lead to wastage of paper.

1.We must sell old newspapers and magazines to the scrap collector or *raddi*. ☐

2.We should print, write or draw on both sides of the paper ☐

3.We should use a full sheet of paper for writing even a small note. ☐

4.We must re-use paper bags to carry our things. ☐

KNOW MORE

The 3 R's of saving the environment also apply to saving paper. They are R– Reduce, R– Reuse and R– Recycle.
