

Read the text below and correct the underlined errors.

For each question, write the correct word in the space provided on your answer sheet.

Killer Whales

During (0) a great whaling days of the 16th century, killer whales also called orca, have had a bad reputation. These giant sea mammals (1) was known as ferocious killers because they swallowed adult sea lions and capsizing fishing boats. Today, we know these killer whales (2) is in fact 'gentle' predators. Though they are fierce hunters, we also know that they like human company as a matter of fact they can be (3) teaching to do special tricks in zoos (4) with aquariums.

Killer whales are easily (5) recognises by their black and white markings, their large dorsal fins and huge teeth-lined jaws. Killer whales have very powerful teeth. Killer whales (6) lives all over the world but are mostly found in the Arctic and Antarctic oceans. They usually (7) travelling in groups and their diet includes sea lions, seals, penguins and various species of fish. The killer whale has only one enemy and that (8) was man.
