

FRACCIONES IRREDUCIBLES

Simplifica las fracciones hasta la fracción irreducible.

$$\frac{80}{60} = \frac{\square}{\square}$$

$$\frac{30}{12} = \frac{\square}{\square}$$

$$\frac{27}{45} = \frac{\square}{\square}$$

$$\frac{25}{50} = \frac{\square}{\square}$$

$$\frac{27}{27} = \frac{\square}{\square}$$

$$\frac{70}{30} = \frac{\square}{\square}$$

$$\frac{44}{28} = \frac{\square}{\square}$$
