

Last Saturday, my family and I went to the zoo. It was a sunny and beautiful day. The first animals we saw were the elephants. They were big and strong, but the giraffes were taller than the elephants. The monkeys were very funny; they jumped and played all the time. Then, we saw the cheetah, which is the fastest animal in the zoo. Finally, we visited the pandas. They were the cutest and most peaceful animals of all. I think the zoo is one of the best places to [learn about animals](#).
