|               |                                |                             |
|---------------|--------------------------------|-----------------------------|
| Animal Choice | Animal 1 :<br>(e.g., elephant) | Animal 2 :<br>(e.g., tiger) |
| Your animals  |                                |                             |

## Step 2: Find Your Facts!

Fill in the table below with simple facts about your two amazing animals. These facts will help you make your comparisons!

| Fact Category                                                                                      | Animal 1:<br>_____ | Animal 2:<br>_____ |
|----------------------------------------------------------------------------------------------------|--------------------|--------------------|
| <b>Max Weight</b> (Use simple units:<br>e.g., 1 gram or 5 kg)                                      |                    |                    |
| <b>Top Speed</b> (e.g., 10 km/h or 50<br>km/h)                                                     |                    |                    |
| <b>Strong</b> (Use simple words: <i>Very<br/>Smart, Smart, Not So Smart</i> )                      |                    |                    |
| <b>Danger Level</b> (Use words: <i>Very<br/>Dangerous, Slightly<br/>Dangerous, Not Dangerous</i> ) |                    |                    |
| <b>Other Cool Fact</b>                                                                             |                    |                    |

## Step 3: Draft Your Comparing Sentences!

Now, use your facts and the special Comparing Words (Comparative Adjectives) to write at least FIVE sentences. Use -er than or more... than. These are the facts you will use in your podcast!

example :

The Elephant is heavier than the Tiger
