"This temple in Galtaji near Jaipur is also known as the Monkey Temple due to the large tribe of monkeys that live here. Here, a tank that has a natural water spring never goes dry."

5.

"It is a giant natural balancing rock in Mahabalipuram near Chennai (Tamil Nadu). Its diameter is 5 metres. It stands on a smooth slope, changing all laws of physics."

6.

7.

"This place is located on the Leh-Kargil-Srinagar National Highway, about 50 km from Leh, at a height of 11,000 feet above sea level. It has extreme magnetic properties which are strong enough to pull cars or many objects towards the hill. This phenomenon defies the laws of gravity."

True FACT

Lonar Crater was formed by the impact of 2-million-ton meteorite that hit the Earth 57,000 years ago in the region of Maharashtra.
