Lesson Six

Skills Time!

Writing

1 Match the words to make compound nouns. Write the words.

1 class	b	a market	
2 space		b room	classroom
3 super		c castle	
4 home		d ground	
5 sand		e ship	
6 play		f work	

2 Read and circle four compound nouns from Exercise 1.

What will life be like in 200 years' time?

In 200 years' time, there will be lots more people, so it will be too crowded on Earth. I think we will have to build new cities in space. People will live in space stations in very tall flats (a).

There will be schools on the space stations for children (b). Life on the space stations will be very different, so there will be special classrooms for children to learn more about their new life (c). But there won't be any playgrounds. Maybe children will have robots to help them with their homework and tell them when to go to bed (d).

I think that the way we travel around the space stations will also be different. We will all travel in mini spaceships which will be very fast (e). You won't be able to buy a spaceship because they will be very expensive. Instead, the spaceships will be like trains for everybody to use (f).

3 Read the notes. Match them with the sentences above.

1 children - school - space stations ___
2 robots - homework - bed ___
3 classrooms - new life ___
4 travel - mini spaceships - fast ___
5 200 years - crowded - cities in space - flats a
6 spaceships - expensive - trains ___
