

Casa Bonita

Casa Bonita is a famous Mexican restaurant in Denver in the U.S. It's in a shopping mall, but it isn't a fast food restaurant. Inside Casa Bonita, there's a small forest. There's a small lake, too. There are tables and chairs between the forest and the lake. Next to the lake, there's a very small mountain. There's a waterfall, too. It's across from the tables and chairs.

The forest and the lake are beautiful. But there aren't any animals or birds or butterflies in Casa Bonita. The trees and the mountain aren't real. They're plastic. But the food isn't plastic. It's good!
