A Great Tourist Destination

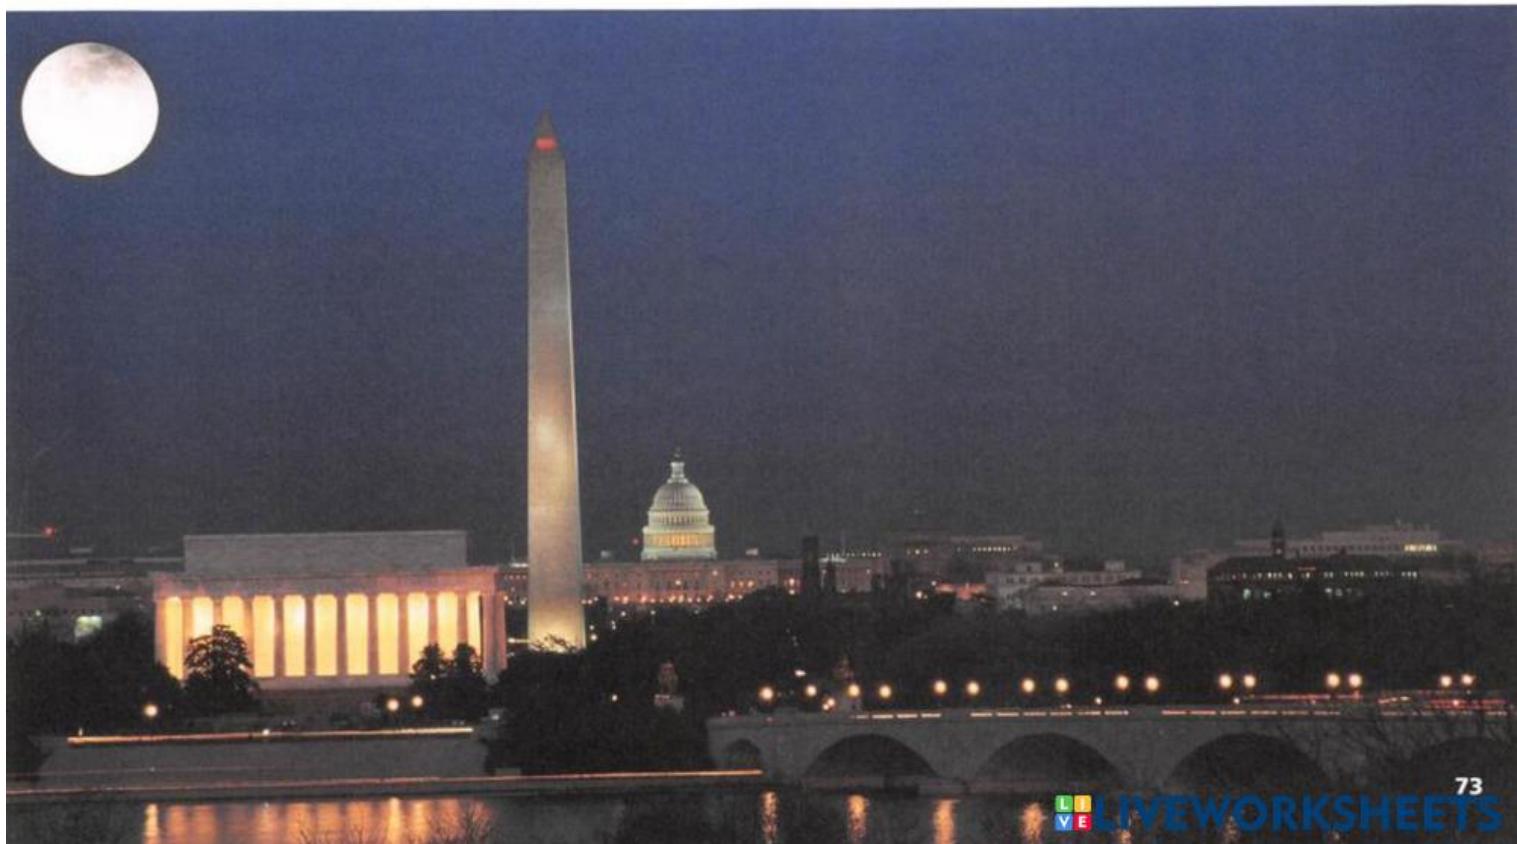

New York and Boston attract millions of tourists, but I think one of the best cities to visit on the east coast of the United States is Washington, D.C. It has some of the most interesting **landmarks** and tourist **spots** in the country. There are many monuments to visit, such as the Lincoln Memorial, the Jefferson Memorial, and the Washington Monument, which is the tallest building in Washington. For more excitement, the area called Georgetown in northwest Washington is famous for its shopping and restaurants. Finally, there is the White House tour. On this tour, the guide **leads** visitors as they walk through many of the rooms in the White House and **view** the home of the president of the United States. Although Washington, D.C., does not have the large number of visitors that New York or Boston does, I think this city is one of the best destinations for tourists.

Reasons for Exercise

First, your body will look better. Exercise is perfect for staying trim and healthy looking, and it does not have to take a long time. Second, you will actually have more energy. A person who exercises will have fewer problems walking up stairs or climbing hills. In addition, your heart will be healthier. A good, strong heart is necessary for a long, healthy life. Finally, exercise reduces stress and keeps your mind in shape. Therefore, if you want to improve your overall health, you should exercise three or four times each week to accomplish this goal.
