Our Study Tour to Yogyakarta

Last semester, my class went on a study tour to Yogyakarta. It was organized by our school as part of our cultural learning program. I was really excited because it was my first time visiting Yogyakarta with my friends.

We left school early in the morning by bus. The trip took around ten hours, but it didn't feel boring because we sang together, played games, and shared snacks on the way. Our first destination was Prambanan Temple. The guide explained the history of the temple and its reliefs. I was amazed by the tall and beautiful architecture.

The next day, we visited Borobudur Temple. Climbing to the top was a little tiring, but the view was totally worth it. Our teacher reminded us to respect the cultural site, so we took pictures politely. After that, we went to Malioboro Street. It was very crowded, full of shops selling souvenirs, batik clothes, and traditional food. I bought some keychains and batik shirts for my family.

On the last day, we went to Taman Sari Water Castle and Ullen Sentalu Museum. The museum showed us many interesting things about Javanese culture. I learned a lot from the trip, not only about history but also about teamwork and discipline.

The study tour to Yogyakarta was one of the most memorable experiences in my school life. I felt closer to my friends and teachers, and I also learned so many new things. I hope I can join another study tour again in the future.
