Essential skills

We are able to provide hands-on training based on individual needs and capabilities, both in front and back of house operations, and in both a la carte and Buffet services.

Volunteers learn a variety of tasks step by step, ranging from Hosting and Floor Service roles to Food Preparation and Back of House administration.

As a mutual exchange we are able to provide food, mentoring and references for our volunteers. Many of our volunteers credit this experience as a pathway to paid hospitality employment.

We are fortunate enough to be able to offer a quality Barista Training experience where volunteers commit to shifts in the Lentil cafes and learn all aspects of coffee making.

Our experienced baristas mentor and guide volunteers during their volunteer shift in all elements of cafe service. From quality and efficient coffee making, to plating up, serving drinks, cashier skills and making speciality beverages, such as chai lattes, matcha and juices, our trainees learn the whole lot.

Our cafe training program graduates have a high rate of gaining employment following their training at a Lentil cafe.
