Exercise 3: Cho dạng đúng của các từ trong ngoặc để tạo thành một bài Writing Task 1 hoànchỉnh.

The bar chart and pie chart give information about why US residents travelled and what travel problems they experienced in the year 2009.

It is clear that the principal reason why Americans travelled in 2009 was to commute to and fromwork. In the same year, the primary (1-concerning)__ of Americans, with regard tothe trips they made, was the cost of (2-travel)_.

Looking more closely at the bar chart, we can see that 49% of the trips made by Americans in 2009 were for the purpose of commuting. By contrast, only 6% of trips were visits to friends or relatives, and one in ten trips were for (3-society) _____or recreation reasons. Shopping was cited as the reason for 16% of all travel, while unspecific 'personal reasons' accounted for the remaining 19%.

According to the pie chart, price was the key (4-consider)_____for 36% of Americantravelers. Almost one in five people cited (5-safe)_____ as their foremost travel concern, while aggressive driving and highway congestion were the main issues for 17% and 14% of the traveling public. Finally, a total of 14% of those surveyed thought that access to public transport or space for pedestrians was the most important travel issues.
