

TIP

In vowel pairs, two vowels come together to make one long vowel sound. The second vowel is silent.

- ee and ea as in fleet and reason
- oa and oe as in loaned and hoed
- ue as in clues

In vowel digraphs, two vowels come together to make a vowel sound that can be long or short.

- ea as in measure

Spelling and Writing

Proofreading

There are ten mistakes in the paragraphs below. Use the proofreading marks to fix each mistake. Then, write the misspelled **list words** correctly on the lines.

Proofreading Marks

-  spelling mistake
-  add something

Animal tracks are cluez. If you know what to look for, you can uncover their meening. You can tell what kind of animal left them. Sometimes, you can figure out what the animal was doing. You can meashur a track to get an idea of the animal's size. With some experience, learning to read animal tracks is a breaze.

The tracks of some animals are similar to each other. For example, dogs, foxes, and wolves belong to the same family. Their tracks show the pads that cover the bottoms of their feet. If you look carefully, though, you can tell the differences between them. Deer, elk, and moose leave the imprint of their hooves. The tracks of most birds show three narrow toes in front and one in the rear. Instead of footprints, snakes leave trails that show their gliding movement through sand and mud.

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
