

## Two People and Their Daily Lives

**Hello! My name is Oliver.**

I live in a small town in the United Kingdom, not far from London. I work in a school, and I really enjoy my daily routine. My favorite hobby is playing football with my friends on weekends. When the weather is sunny, we meet at the park and play for hours. After the game, we usually sit on the grass and talk about our week.

My favorite food is fish and chips, especially on Fridays because it is a tradition in many places in the U.K. I also like drinking tea in the afternoon because it helps me relax.

**Hi! I'm Yuki.**

I live in Tokyo, the capital city of Japan. I study at a university, and I love walking around the city to discover new places. My favorite hobby is drawing anime characters. I practice every day because I want to become a professional illustrator in the future.

My favorite food is sushi, especially salmon sushi. I also enjoy eating ramen with my friends on weekends. In Japan, we often go to small restaurants where the food is fresh and delicious. I like drinking green tea because it is healthy and gives me energy.
