

SC exam 2 - Reading

Read the text and answer the questions.

Lucía is a social communication student who works part-time at a local radio station. Every morning, she prepares short news reports about city events. Right now, she is writing a script for the afternoon program, and she is checking interviews from different community leaders. Lucía loves telling real stories, so she always listens carefully before editing any audio. Next year, she *is going to* start a digital journalism project with her classmates. They *will* create short documentaries about social issues. Lucía thinks the project *might* help them reach new audiences online. She also believes that social communicators should understand their communities, because people *want* to feel represented. If everything goes well, the team *will* release the first episode in two months. At the moment, Lucía *is thinking* about contacting a photographer who *may* collaborate with them.

Questions

1. What does Lucía prepare every morning?
2. What is she doing right now?
3. What project is she going to start next year?
