

- 1 It's very popular with birdwatchers because it's at the mouth of a *river / some dunes* and there's a lot of *wetland / craters* that attract birds.
- 2 There's a very *narrow / steep* ridge leading up to the main peak and the views are *breathtaking / stunning* - if you're not too scared to look down!
- 3 We sometimes gather mushrooms in the woodland near us, but you have to be careful not to *stray from / stick to* the paths as it's so *thick / dense* you can easily get lost.
- 4 It's miles from civilisation, really. You just drive along dirt *roads / tracks* across these huge *flat / rolling* plains. And it's all pretty *lush / barren* - just brown grassland.
- 5 It's a mecca for climbers because there are these amazing *sheer / jagged cliffs* on either side of the valley / gorge. I saw quite a few people climbing without ropes. They must be nuts.
- 6 The road winds along the coastal cliffs and there are these little coves where you can scramble down to *sandy / rocky* beaches and have a dip. The water's amazing - crystal *clear / very murky*.
