Want to travel cheaply? Why not couch surf?

If you love travelling but don't want to spend much money on your lodging, couch surfing may be for you! Instead of staying in a hotel or guest house when you take a trip, couch surfing allows you to be a guest in someone's home. You can also host travellers in your own home. It's an example of what people call the 'gift economy'; there is no money paid between members and there is no expectation by hosts for future rewards. It's also a way of seeing the 'real life' of a town or city, because you are staying with someone who actually lives there – a local. You're more likely to find the hidden places in a city when you're with a resident. So, if you see yourself as a 'traveller' and not a 'tourist', couch surfing may be for you. It's ideal for backpackers, but you can be any age to enjoy it.

Couch surfing was first thought up by computer programmer Casey Fenton in 1999, when he was 25 years old. The idea arose after Fenton found a cheap flight from Boston to Iceland but didn't have a place to stay and didn't really want to stay in a 'boring' hotel. He wanted to do something far more exciting. Fenton hacked into a university database and randomly e-mailed 1,500 students from the University of Iceland asking if he could stay with them. He received 50 offers of accommodation. On the return flight to Boston, he came up with the idea to create the website. He registered the couchsurfing.com domain name in June 1999. The couch surfing community now has 12 million members and covers 200,000 cities.

Couch surfing isn't for everybody, but, if you have a sense of adventure, it's a great way to see the world. And by the way, when couch surfing, you may get a couch or, if you're lucky, a bed!

- ___ 41. Couch surfing is free.
- ___ 42. When couch surfing you stay in a guest house.
- ___ 43. You have to be young to couch surf.
- ___ 44. You can couch surf in 200,000 cities.
- ___ 45. When couch surfing you have to sleep on a couch.
