

VISITING THE ZOO

Name: _____

Date: _____

A. Adventure Inside the Lion's Tunnel

Last weekend, my friends and I visited the zoo to try a new attraction called the Lion's Tunnel Adventure. The tunnel was made of thick glass, allowing us to walk safely under the lions' enclosure. As we stepped inside, the tunnel felt cool and a little dark. Suddenly, a large lion walked right above us, and we could hear its deep footsteps. My heart raced, but I was also excited because it felt like being in a real jungle. At the end of the tunnel, a guide told us interesting facts about how lions communicate and hunt. It was an amazing adventure that I will always remember.

B. Playing with Some Animals

On Saturday, the fifth-grade students visited the zoo with their teacher, Mrs. Rani. They were excited because that day they were allowed to play with some animals in the zoo. Their first stop was the goat area. The students could feed the goats with carrots. The goats were friendly and tried to eat the food quickly, which made the students laugh. After that, they went to the bird garden. In this place, the students could play with colorful parrots. Some parrots sat on the students' arms, while others flew around them. The parrots made happy sounds, and the students enjoyed the moment. Next, they visited the rabbit park. The rabbits were soft and gentle. The students took turns petting the rabbits and watching them hop around the grass. Many students said the rabbits were their favorite animals. Before going home, the students walked around to see other animals like elephants, lions, and turtles. They could not touch these big animals, but they liked watching them in their habitat. At the end of the visit, the students felt very happy because they had a fun day playing with some animals and learning new things.
