NEW WATERPROOF CLOTHING

There are few experiences as unpleasant as being (0) *bitterly* cold and dripping wet on board a boat. The (25) that you may be several hours away from warm, dry clothing is enough to slow down even the (26) sailor.

TOUGH

However, recent (27) developments in the types of material used to make waterproof clothes have, hopefully, put an end to the (28) of the sailor. New suits, trousers and jackets have been designed which allow people to stay warm and dry at sea and can be worn (29) for days on end.

The new clothing is by no means cheap, but that will not stop it from selling well, and not just in the sailing market. (30) previous types of waterproof clothing, which tended to leave the wearer hot, sweaty and sticky even after a (31) short burst of (32) activity, these new clothes are manufactured with an (33) inner layer. This is made of a special material which allows the clothes to 'breathe' – in other words, body heat can escape so that the body stays dry, but still maintains its (34) in all weathers.

ISLAND IN THE SUN

With its (0)^{tropical}..... sunshine, clear, blue water and the warm welcome you will receive, this island is hard to beat as a holiday destination.

The island has something for everyone, but the (25) west coast is the perfect (26) for people who love water sports, such as water-skiing and windsurfing. For those who prefer a more relaxing holiday, there are beaches of fine, white sand, facing the calm Caribbean Sea and also an (27) selection of restaurants, where the local seafood is (28) recommended.

Among the many other (29) on the island are trips in a submarine – which allow you to explore the island's fascinating coral reefs – Caribbean dancing and a jazz festival held (30), early in January. It is also worth travelling along the wild east coast, where, because it faces the Atlantic Ocean, the weather is often (31) Sadly, this makes the coast rather (32) for swimming, in contrast to the calmer beaches on the west coast. Getting round the island is not difficult, as car and bicycle hire is (33) arranged, and there is an excellent road system, with a very (34) bus service.

AUSTRALIA

For years, Australia has had an (0) pattern of population distribution, with more people living in towns and cities in (25) areas, especially the east and south-east, than in the interior of the country. Since the 1940s, the population has become still more (26) distributed with a significant rise in the number of people living in these cities.

At one time, what made the (31) of people in Australia's cities so (32) was the country's dependence on the export of agricultural produce – indeed, the country's economy was founded on the production of wheat and wool. This has since changed, not only with increased (33) activity, but also with the rapid (34) of tourist and recreational facilities. Tourism is now Australia's largest export industry.

REMEMBERING YOUR DREAMS

A team of (0)*scientists*....., who have studied the subject of dreams, have come up with some interesting conclusions. First of all, everybody, without exception, has them. Secondly, dreams can be of practical value, acting as a (25) of things of (26) that we need to do in our waking lives. If you dream of the punishment you may receive for not handing in your homework (27) , for example, this may help you to do it on time. Indeed, things we are (28) about in our daily lives often feature in our dreams.

But it is hard to make sense of your dreams if you lack the (29) to remember them in the first place. One (30) is that you should keep a diary and pen by your bed, so you can write down your dreams as soon as they occur. You should concentrate on three aspects. Firstly, record the strongest emotion in your dream, whether it is fear, (31) or whatever. Then write down anything strange or (32) that happened and the names of the people who made an (33) in your dream. This way, according to the experts, you will have a (34) and meaningful dream record, which will make for fascinating reading.
