Skiing is an exciting sport but it isn't a new one.

are more than 5,000 years old!

- About 180 years ago, on a small farm in the
4 mountains, Sondre Norheim's father
wood from the forest to make his young son a pair
5 skis. Sondre loved putting on his
skis, jumping off the roofs in his village and skiing
6 down the hills. he grew up, Sondre
made the first skis that could turn on soft snow and
7 won important skiing competitions.
8 People still Sondre 'the Father of
Skiing'.

- Now, both skiing and snowboarding are really
popular sports! Lucky families can stay in wonderful
9 mountain villages where ski lifts take
to the top of the mountain so they can ski

- 1 I was twelve years old today. I got some excellent
presents! Ten my friends came to my party.
2 Tom gave me a computer game called 'Bats in your basement!'
3 I haven't tried to it yet, but it looks good. Sally
bought me a T-shirt. 's got an alien on the front! I
4 got a new keyboard from Mum and Dad. But Uncle Frank gave
me most amazing present. He's just given me a
sweet little puppy with long, soft, gold-coloured fur! I'm going
5 to it 'Honey', I think! It's playing with a toy penguin
at the moment! It's brilliant.
