WRITING

Unit 2 – My Neighbourhood

1. **Have a look at Eva's presentation of her neighbourhood.**

Hi! I'm Eva and I'll tell you about my neighbourhood. I think my area is great for teenagers because there are lots of things to do. We can go to the cinema, for example – there are two cinemas actually. Or we can meet and play video games at the big Internet café in the square. ___ Of course, there's a fast-food restaurant. We usually go there on Fridays after school. And there are many shops. All kinds of shops. ___ I really enjoy going shopping with my friends or my mum there. There are also a lot of blocks of flats in my area. ___The problem is that there isn't a sports centre. It's a pity because we all love sports. What is more, the streets in my neighbourhood are crowded and wide. ___ It would be really nice to have a park or a big playground near my house. Finally, it's really easy to come to my place because it's next to a metro station and the central church of the town.
Now, what is your neighbourhood like?

The following sentences are missing from the text. Put them in the correct place (___) in the paragraph.

a. **My parents allow me to go there on Saturdays.**
