The future of electric vehicles (EVs) is promising, as technological advancements and environmental concerns (18) _____. As governments worldwide implement stricter emissions regulations and offer incentives for EV adoption, manufacturers are investing heavily in research and development. (19) _____, resulting in longer ranges and faster charging times. For instance, new solid-state batteries have the potential to enhance energy density and safety, making EVs more practical for everyday use.

Additionally, the rise of autonomous driving technology is set to revolutionize the way we interact with vehicles. Many electric models are now equipped with advanced driver-assistance systems (20) _____. Furthermore, the integration of smart technology allows for seamless connectivity, enabling drivers to monitor their vehicle's performance and locate charging stations through mobile apps.

As charging infrastructure continues to expand, (21) _____, the convenience of owning an EV is increasing. This transition to electric vehicles not only promises a reduction in carbon emissions but also fosters a cleaner, healthier environment. Overall, (22) _____ and sustainable transportation.

Question 18:
A. driving the automotive industry toward a sustainable transformation
B. drive the automotive industry toward a sustainable transformation
C. that drive the automotive industry toward a sustainable transformation
D. from which drive the automotive industry toward a sustainable transformation

Question 19:
A. This focus has led to significant improvements in battery technology
B. Having led to significant improvements in battery technology
C. This focus of significant improvements in battery technology
D. Significant improvements have led to this focus on battery technology

Question 20:
A. who not only enhances safety but also paves the way for fully autonomous driving
B. which not only enhance safety but also pave the way for fully autonomous driving
C. who not only enhance safety but also pave the way for fully autonomous driving
D. which not only enhances safety but also paves the way for fully autonomous driving

Question 21:
A. more public charging stations are being installed
B. with more public charging stations being installed
C. more public charging stations being installed
D. with more public charging stations installing

Question 22:
A. the future of electric vehicles holds immense potential for innovation
B. immense potential for innovation holds the future of electric vehicles
C. electric vehicles for innovation hold immense potential for the future
D. the future for innovation holds immense potential of electric vehicles
