A Visit to the Dentist

Rami goes to the dentist because his tooth hurts. The dentist finds a cavity, which is a small hole in the tooth. This happened because Rami eats candy, drinks soda, and sometimes forgets to brush his teeth. The dentist fixes the hole with a filling and tells Rami to brush every morning, after meals, and before bed.

Choose the correct answer.

1. Why did Rami go to the dentist?

- A) To get a new toothbrush
- B) Because his tooth was hurting
- C) To show the doctor his candy

2. What is a "cavity"?

- A) A type of healthy food
- B) A small hole in a tooth
- C) A toothpaste

3. According to the dentist, when should Rami brush his teeth?

- A) Only in the morning
- B) Only when he eats candy
- C) Morning, after meals, and before bed

True (✓) or False (✕)

1. Bits of food can cause cavities.

2. The dentist was unable to fix Rami's tooth. _____

3. Drinking a lot of soda pop is good for your teeth. _____
