READING COMPREHENSION:

Sports in secondary schools

All pupils in the UK have to do PE, or Physical Education, at school before they are 16. The sports you can do depend on your school. Boys and girls play the most popular sport at school – football. They play other traditional team games: rugby, field hockey, netball and rounders or do individual physical activities like athletics or gymnastics. Today, some schools offer more modern sports and physical activities, for example dance, fitness, dodgeball or Ultimate Frisbee.

Netball is similar to basketball, but you can't run with the ball. There are seven players on each team and you score goals by throwing the ball into a net. At UK schools, girls usually play this sport.

Rounders is similar to baseball or softball. One team hits the ball with a bat and runs around four posts or bases in the field. The other team throws the ball and tries to catch it or touch the post with the ball.

Dodgeball is a team sport. Players throw the ball at the players on the other team and try to hit them with the ball. If the ball hits you, you are out. Don't worry – the balls are soft!

Ultimate Frisbee: in this sport there are two teams of seven players. You score goals by throwing the Frisbee (a plastic disc) into the 'endzone', but be careful, you can't run with the Frisbee!

In general, 14- to 16-year-olds do about 100 minutes of sport a week at school, but this reduces to 30 minutes a week for 17- and 18-year-olds. Students who enjoy PE can do out-of-hours school sport at a school sports club after school or at lunchtime. Schools often have teams that play in intra-school (within the school) and inter-school (between two or more schools) leagues and competitions.
