Life on the International Space Station

Some people dream of going to space. However, life in space is not very easy. Here are some of the problems that people on the International Space Station (ISS) have.

1. Having lunch on the ISS is very difficult because there is no gravity in space, and things never stay where you put them. The food is in plastic containers because it can't stay on a plate.
2. When they go outside, people wear special clothes, because there is no atmosphere in space. It is also very cold in space. Inside the ISS, people can wear ordinary clothes.
3. You can't take a shower in space because the water doesn't stay in one place. People wash with a sponge with water and soap.
4. People on the ISS can't sleep in ordinary beds because their bodies don't stay in the beds. They use special sleeping bags on the wall.

If you want to take a vacation in space, remember that life there is very different from life at home. And if you don't like it, you can't take a train or bus home!
