Memorize the text below and then retell it in front of the class!

Global Warming

Global warming is a complex phenomenon, and its full-scale impacts are hard to predict far in advance. But each year, people learn more about what causes global warming.

People argue that vehicles and industries pollution make global warming happens. We know that emission gas of industries and vehicles cause increasing of carbon dioxide and air vapor in atmosphere which makes world temperature hotter, called greenhouse effect.

Illegal logging is one of causes global warming. For example, in our country, Indonesia, illegal logging is the most popular activity. Many people, government or commoners like do it. Irony, they know, if they cut trees more and more, temperature of world will increase. Consequently, Earth is getting hotter. But no one care with this problem.

Using electricity much more, cause temperature of earth warm up. In common, people produce energy with fossil power that makes carbon dioxide in atmosphere increase.

Finally, I think that people must be more care about this phenomenon. Some activities can be done to reduce the effect of global warming. Among these: modernize power plants and generate electricity from nonpolluting sources, cut our electricity use through energy efficiency, use car that more cleaner and burns less gas.

"Why, I know at least a hundred tricks to get away from our mutual enemies, the dogs," she said.

"I know only one trick to get away from dogs," said the cat. "You should teach me some of yours!"

"Well, maybe someday, when I have the time, I may teach you a few of the simpler ones", replied the fox airily.

Just then they heard the barking of a pack of dogs in the distance. The barking grew louder and louder-the dogs were coming in their direction! At once the cat ran to the nearest tree and climbed into its branches, well out of reach of any dog. "This is the trick I told you about, the only one I know", said the cat. "Which one of your hundred tricks are you going to use?"

One day, a cat and a fox were having a conversation. The fox, who was a conceited creature, boasted how clever she was.

The fox sat silently under the tree, wondering which trick she should use. Before she could make up her mind, the dogs arrived. They fell upon the fox and tore her to pieces.

TASK 3:

Read this following hortatory exposition text!

We are writing to complain about ads on TV. There are so many ads, especially during our favorite programs. We think they should be stopped for a number of reasons.

First, ads are a nuisance. They go on for a long time and there are so many. Sometimes, there seems to be more ads than programs.

Second, ads are a bad influence on people. They try to encourage people to buy unhealthy food like beer, soft drink, candy, and chips. And they make people want things they do not really need and cannot afford.

Finally, the people who make ads have too much say in what programmer people watch. That is because they want to put all their ads on popular programmer that a lot of people watch. Some programmer which are not so popular get stopped because they do not attract enough ads, even though those programmer may be someone's favorite.

For those reasons, we think your TV station should stop showing ads. They interrupt programmer, are bad influence on people, and some times put a stop to
